

Andreas Quaisser | Type Design

Web License – Andreas Quaisser | Type Design

Version 0.9 — Last updated: 25 November 2025

License Type: Desktop License

1. Parties to the Agreement

This Desktop License (“License”) is a legal agreement between you (“Licensee”) and Andreas Quaisser – Type Design, Pariser Straße 6, 81669 Munich, Germany (“Licensor”).

By purchasing, downloading, installing, or using the Font Software, the Licensee agrees to the terms of this License.

2. Grant of License

2.1 Type of License

The Licensor grants the Licensee a non-exclusive, non-transferable, non-assignable right to use the Font Software solely as Webfonts.

2.2 Permitted Use

The Web License allows the Licensee to:

- self-host the Font Software in WOFF/WOFF2 format
- serve the font files on the licensed domain
- display the fonts on websites through CSS @font-face
- use the fonts for any number of page templates on the licensed domain

2.3 License Basis: Page Views

The scope of this License is defined by the average monthly page views selected during checkout. Exceeding the licensed volume requires an upgrade.

3. Intellectual Property Ownership

3.1 Copyright

The Font Software is protected by copyright and remains the exclusive property of the Licensor.

3.2 No Ownership Transfer

The Licensee does not acquire ownership of the Font Software — only the rights expressly granted under this License.

3.3 Reserved Rights

All rights not expressly granted remain with the Licensor.

4. Permitted Uses & Restrictions

4.1 Permitted Uses (Web-Only)

The Licensee may:

- self-host WOFF/WOFF2 files on the domain specified at checkout
- load the fonts via CSS for use on that domain
- use the fonts in any number of page templates and subpages
- use the fonts in staging environments belonging to the same domain

4.2 Restrictions

The Web License does not permit:

- local installation of OTF/TTF/Variable Fonts
- use of fonts in desktop software (Office, Adobe, Figma, etc.)
- use in PDFs, print, logos, social media, advertising, packaging
- any embedding in apps, games, SaaS tools, or software products
- using Webfonts on any unlicensed domain
- using desktop OTF/TTF files as Webfonts
- converting WOFF/WOFF2 back into OTF/TTF or modifying the fonts
- providing the files to third parties (except as defined in 4.3)

4.3 Use by Agencies and Freelancers

A Licensee may provide the Webfont files to an external agency only if:

- the agency is developing or maintaining the Licensee's website, and
- the use is strictly limited to the licensed domain.
- The agency may not use the Webfonts for any other client or domain.

4.4 One Domain per License

Each Web License covers one top-level domain, e.g.:

- example.com
- shop.example.com
- blog.example.com
- A second domain (e.g. example.org) requires a separate license.

4.5 No Use to Avoid Desktop Licensing

A Web License cannot be used to avoid purchasing a Desktop License.

If anyone in the Licensee's organization installs the Font Software locally, a separate Desktop License is required.

5. Embedding and Technical Use

5.1 Webfonts Only

The License applies exclusively to WOFF/WOFF2 Webfonts.

5.2 No App, Game, or Software Embedding

Use in applications, games, or interactive products requires a separate App & Game License.

5.3 No Server-Based Distribution

The Licensee may not use the Webfonts in any system where unlicensed users can extract, download, or redistribute the font files.

5.4 CDN Usage

Hosting Webfonts on a CDN is permitted only if access is restricted to the licensed domain.

6. Backups & Security

6.1 Backup Copies

The Licensee may store one backup copy of the Webfonts for recovery purposes.

6.2 Security Measures

The Licensee must take reasonable measures to protect the Webfonts from:

- public download
- unauthorized access
- hotlinking from other domains
- shared repositories, cloud libraries, or asset systems
